

NEW DISTRIBUTION AGREEMENT OF **CDR FOODLAB** ANALYSIS SYSTEMS

CDR and Crystal Filtration reinforce the partnership with the agreement for the exclusive distribution in USA of the CDR FoodLab range of products.

Florence, Italy, 10th September: CDR Srl, manufacturer of quality control systems for food and beverage, signs distribution agreement with **Crystal Filtration Co.** The agreement names **Crystal Filtration Co.** and its division **Quartz Analytics** the exclusive distributor of the **CDR FoodLab** range of products in the United States. The products covered by the agreement are: **CDR FoodLab** for analysis on milk, oils and fats, dairy products, egg products, and other food matrices, **CDR PalmOilTester** for analysis on palm oil, **CDR OxiTester** specific for analysis on olive oil and the related reagent kits. **Crystal Filtration** will inventory for immediate shipment the CDR FoodLab range of products and reagent kits at its home office in Rochester, Michigan.

*“After 3 years of partnership with Crystal Filtration, in which sales of CDR products in North America increased considerably, we have decided to reinforce this partnership – says Gabriele Casini, sales and marketing manager of CDR. – “Last year we launched the new line of analysers with very innovative characteristics and Crystal Filtration formed **Quartz Analytics** to facilitate the distribution of these analysers. This is the right time for a closer agreement, as we work together to expand the use and application of CDR products in the North American market.”*

About CDR

CDR S.r.l is an engineering company based in the neighborhood of Florence, Italy. CDR is active in several fields, such as: telematics, medical diagnostics and food diagnostics, for which it produces systems for the prompt analysis of foodstuff with its brand “CDR FOODLAB Quality control system for food and beverage”.
